

# Glory GFB-800 Series Currency Counters

## Specifications

	GFB-800	GFB-820	GFB-830
Modes	Counts, Adds, and Batches		
4-Speed count selection (Auto or manual start)	500, 1,000, 1,500 & 1,800 notes/per minute		
Counterfeit detection (Programmable density levels)	(Auto-set density levels)	Dual magnetic (MG) (Auto-set density levels)	Dual magnetic (MG) New ultra-violet (UV) (Auto-set density levels)
Feed method	Roller friction type		
Hopper capacity	Up to 300 notes		
Stacker capacity	Up to 200 notes		
Countable note size	2" x 3.4" to 4.3" x 7.3" (50mm x 85mm - 110mm x 185mm)		
Dimensions	10.8"(W) x 9.1"(D) x 9.3"(H) (275mm x 230mm x 235mm)		
Power supply	100~240V AC, 50/60Hz		
Weight	12.1 lbs. (5.5kg)		
Options	I/F connection via RS-232C system External display device		

Specifications are subject to change without notice.

QUALITY THE WORLD COUNTS ON

GFB-800 Series  
Currency Counters

## Power and Practicality On Your Desktop

Full-featured processing power in a compact design is nothing new—Glory pioneered the technology generations ago. The tradition continues with the latest GFB series of currency counters joining Glory's comprehensive line of practical solutions for any cash handling business.

Glory's engineers have unveiled three of the world's most practical yet powerful counters to date: **GFB-800**, **GFB-820** and **GFB-830**. Constructed with tank tough components throughout, these machines will outperform—and outlast—any other counter in its class. The 800 provides the cornerstone of useful features for the series, and the 820 and 830 include the most precise counterfeit detection on the market. Their handsome, space-saving design is remarkably easy to use. Fast, effortless currency counting begins the instant they're turned on.

# Tank Tough

## GFB-800 Series

## Glory's Singular Solution In Three Great Counters

**GFB-800:** The first of three tank tough counters features the essential advantages of this series. Small enough to go anywhere and fast enough for any size job, GFBs count from 500 to 1,800 notes per minute. Operators choose either batch total counts with auto (preset batch totals) or manual (batches from 1-999). With an ample receiving hopper that holds up to 300 notes, and an input stacker capacity of up to 200 notes, routine counting will be simply more accurate and take less time.

**GFB-820:** Starting with the basic features of the 800 then adding counterfeit note detection, the GFB-820 uses twin magnetic ink (MG) sensors to screen all notes. Suspect notes stop the count for visual inspection and identification.

**GFB-830:** Glory's technicians then added new ultra-violet sensors for ultra-accurate detection with the remarkable 830. The combination of MG and UV sensors deliver some of the most reliable detection on the market—providing counterfeit detection up to 90%\* of all notes scanned.

\*Based on independent test study conducted by Glory (U.S.A.) Inc.

## GLORY: Experience the World Counts On

Glory's leadership and experience is an integral part of all our cash handling products. Every one is designed with top priority for rugged construction and durability. A full line of processing solutions, including multi-purpose compact coin sorters, currency counters, currency discriminators, cash dispensers, coin wrappers and coin counters, provide superior performance day-in and day-out for countless loyal customers.

## Outstanding Features Inside

The GFB series delivers high speed counting with low jamming or auto-stop occurrences. The perfectly-placed control panel features a large keypad and bright LED display for quick and easy operation. The large capacity receiving hopper and ample input stacker make feeding and retrieving notes as simple as with many full size machines. All three are a surprising lightweight 12 lbs. and use standard 115V AC power supply.

Glory's veteran design teams constantly analyze exactly what financial businesses require. At the top of the list for note counters is reliability and versatility. Accurate counting is certainly expected, but thanks to Glory's experience in design, construction and support it will never be time consuming. The GFB-800, 820 and 830 bring high speed counting to an office, to a desk, to your fingertips.
